RESEARCH & ACADEMIC INTERESTS

Software Engineering, Machine Learning, Internet of Things (IoT), Internet of Everything (IoE), Computer Vision, Intelligent Video Analytics, Software Security, Applied AI for Smart and Embedded Systems (IoT/IoE), Scalable Multimedia & Streaming Systems.

UNDERGRADUATE THESIS

A New Key Compression Technique for Quantum Key Distribution Model to make a Reliable Reconciliation Cascade Protocol | KUET (June 2015 to April 2016) | Java, Git

- Proposed a compression-enhanced reconciliation model for Quantum Key Distribution (QKD).
- Implemented quantum qubit transmission using SuperDense Coding & Huffman compression.
- Focused on improving reliability and efficiency of reconciliation cascade protocols.
- Thesis Evaluation: 4.00 / 4.00

EDUCATION

Khulna University of Engineering & Technology (KUET), Khulna, Bangladesh

B. Sc. in Computer Science and Engineering (CSE) | CGPA: 3.00 (Out of 4.00) | February 2012 to April 2016

PROFESSIONAL EXPERIENCE

Samsung Electronics [Samsung R&D Institute Bangladesh Ltd. (SRBD), Dhaka, Bangladesh.]

Engineer III | May 2016 ~ Present

- Managed and released the Samsung IoTivity Core SDK (C/C++) used for device connectivity across the [SmartThings](#) ecosystem.
- Managed a team of four engineers in developing the IoT camera plugin.
- Collaborated with cross-functional engineering teams in South Korea, the USA, China, and India.
- Primary developer of the Samsung Home Care plugin, responsible for features such as live camera streaming using WebRTC and RTSP protocols.
- Developed IoT automation that detects motion, sound, and faces, along with user notification alerts.
- Integrated third-party cameras (Google Nest, Ring, Aqara) to enhance user satisfaction and improve system compatibility.
- Addressed critical user feedback, significantly improving app satisfaction and ratings.
- Built the first PoC of the iOS SmartThings project using IoTivity Library, Swift, and Objective-C.
- Assisted in the initial release of the SmartThings iOS project to the app store.
- Played a pivotal role in building foundational modules for the iOS SmartThings app.

TECHNICAL SKILLS & INTERESTS

Programming Languages: Swift, SwiftUI, Objective-C, C++, Java, Python.

Architectural Patterns: MVC, MVVM, MVVM-C.

Frameworks & Tools: UIKit, AVFoundation, Combine, WebRTC, CoreML, CreateML, Tensorflow.

Domains: Scalable System Design, IoT Integration, Applied Machine Learning, Real-Time Streaming.

PROFESSIONAL PROJECT & RESEARCH EXPERIENCES

- [SmartThings](#) | Development Project for iOS at SRBD (May 2016 ~ Present) (Swift, SwiftUI, C++)
SmartThings (iOS) connects and controls IoT devices locally and remotely.
- **Samsung IoTivity Library** | Development Project for SmartThings at SRBD (2024) (C, C++, Objective-C)
Core IoTivity SDK for SmartThings app to connect and control every IoT device.
- **Home Care Monitor (Camera) Plugin** | Development Project for SmartThings at SRBD (2023) (Swift)
Plugin for SmartThings app that controls and streams all kinds of IoT Camera devices.
- **LUX (Speaker) Web Plugin** | Development Project for SmartThings app at SRBD (2020) (JS, CSS, HTML)
Plugin for SmartThings app that controls the Samsung Galaxy Home mini (Speaker) device.
- **Prayer Time Phone Silencer** | Undergraduate Project at KUET (2014) (Java, Google MAP API)
The app keeps the phone silent during prayer and returns it to normal mode afterwards.

KEY AWARDS & HONOURS

- ✓ Recognition of outstanding contribution (Team of the Year) award, 2023. Awarded by SRBD.
- ✓ Recognition of Excellence (Development) award during the 4th quarter, 2022. Awarded by SRBD.
- ✓ Certificate for Excellence in Software Certificate Test, 2022. Awarded by SRBD.
- ✓ STAR of the Month in December 2021 & ICON of the Month in August 2020. Awarded by SRBD.
- ✓ Best Collaboration Award (2017). Awarded by Software R&D Centre, Samsung Electronics.
- ✓ Vocational Scholarship (2012 ~ 2015) - Khulna University of Engineering & Technology.

PROFESSIONAL COURSES & CERTIFICATIONS

- [Machine Learning A-Z: AI, Python & R](#) | Udemy
- [Create ML for iOS Developers - A Beginner's Guide](#) | Udemy
- [Machine Learning for iOS Developers](#) | LinkedIn Learning
- [Machine Learning for iOS: Core ML and Create ML](#) | LinkedIn Learning
- [TensorFlow 2.0: Working with Images](#) | LinkedIn Learning
- [TensorFlow: Working with NLP](#) | LinkedIn Learning
